Dear Ms Taefi

Grierson & Co – Melbourne magistrates Court Case Reference B10510315

I refer to your letter of 25 March 2011 and respond as follows:

1. Stalking is a course of conduct. The course of conduct we rely on is the continued actions of Mr Cox over several months in posting images and comments on Facebook. We are not obliged to identify each image or comment as an individual act of stalking because stalking by its very nature requires a pattern of conduct evidencing a continuity of purpose.
2. Professor Grierson requires the removal of all posts which name her or which refer to her by implication. This includes all references to "gruesome", all images and comments which refer to Margaret Thatcher (plainly identified with Professor Grierson in an earlier post) all references to "ding dong the witch is dead", and the material which contains images of Professor Grierson with the phrase "her legacy shall be ashes".
3. Professor Grierson does not seek the removal of any of the images of Mr Cox's original work in his recent series "Repulsive Insects" and "Horrors of the Deep". She does seek the removal of all of the comments by Mr Cox attached to those images which overtly or by implication refer to or comment on her.

Yours faithfully
